PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience building innovative digital solutions. I specialize in transforming complex challenges into scalable, high-impact products through thoughtful engineering and data-driven problem-solving. Passionate about leveraging technology to improve decision-making, expand access to services, and create meaningful value through reliable, user-focused software.

EXPERIENCE

Trainee Developer

Febaury 2026 – Present | AUCA Innovation| Kigali Rwanda

Advancing my skill in software development, working on Financial Behavior Intelligence Models for Financial Inclusion that use AI and transaction data to improve financial access for underserved populations.

Software Developer

June 2024 – May 2026 | WAO Sport| Accra Ghana

Collaborated on building a nationwide streaming ecosystem and digital tools to launch and support a new sports category in the Ghanaian market.

Software Engineer Intern

May 2024 – August 2024 | Freshsense | Inarambu Turkey

Specialized in mobile architecture and MVVM design principles during an intensive internship, bridging the gap between mobile design architecture and Flutter implementation.

Projects

Financial Behavior Intelligence System (FBIS) | Research & AI Project

Conducted research on financial inclusion in Rwanda, exploring how mobile money transactions, savings behavior, informal savings groups, and expenditure patterns can be leveraged to assess financial inclusion.

AI-Powered Student Performance Prediction System | Research & Analytics Project

Developed a predictive analytics framework that leverages mid-semester academic data and behavioral indicators to evaluate student performance, identify at-risk students, and generate personalized AI-driven recommendations for academic improvement.

Skills and Tools

Programing Languages: JavaScript, Python, Java, HTML, CSS

Frameworks & Libraries: React, Spring Boot, Django & Django Rest, Flutter, Firebase

Databases: PostgreSQL, Supper Base

Education

BSc. Software Engineering

Adventist University Of Central Africa (AUCA)

Language

English Lanugauge: Proficient
